

Assignment Grading Rubric

Course: HA565 Unit: 09 Points: 100

Unit 9 Assignment

Unit outcomes addressed in this activity:

- Discuss the various ways that health information is used within and without health care facilities.
- Explain performance improvement and identify performance improvement tools

Course Outcome

HA565-1: Plan reimbursement compliance strategies.

Instructions

From electronic health records (EHR) to telemedicine, the use of information technology is rapidly expanding. Discuss how individuals, professionals, and organizations use health information. How can health information improve the provision of quality? Finally, after conducting research, discuss the possible future of information technology in healthcare.

1. Title page
2. Introduction
 - Discuss the importance of health information
 - Discuss how individuals, professionals, and organizations use health information
