CE100 Unit 4

Project Directions: Part 1

The Degree Plan (Spreadsheet)

You might want to print this page out and refer to it as you complete this project.

The spreadsheet you will be completing (pick only one, either the Associate’s Degree Spreadsheet 1 OR the Bachelor Degree Spreadsheet 2) lists the courses you are required to complete for the Early Childhood Development program as well as highlighted “Open Elective” spaces. After reviewing the readings from units 3 and 4, select the electives you might want to take for your degree program.

Remember, Associate’s Degree students will need to select up to five (5) 5-credit classes (for a total of 25 open elective credits) while Bachelor Degree students will need to select up to six (6) 5-credit classes AND four (4) 6-credit classes (for a total of 54 open elective credits). Students who are expecting transfer credits may be able to count some of these credits as part of their elective requirements (confirm this with your advisor).

When completing your degree plan spreadsheet, type in the course number and course name in the highlighted yellow space (delete “Open Elective”) and confirm the number of credits the elective is worth. For example, PS220 Child and Adolescent Psychology 5 credits. Usually 100/200 level classes are worth 5 credits and 300/400 level classes are worth 6 credits, but again, you want to carefully look for credit numbers in the course descriptions (see unit 3/4 readings).

Once you have completed the Degree Plan (Spreadsheet 1 or Spreadsheet 2), save it first and then upload it as an attachment to the unit 4 dropbox. The dropbox is located at the top of this class on the blue toolbar. For additional help on submitting to the dropbox, see the Dropbox Guide under the Academic Tools tab or you can contact KU Support for assistance at 866.522.7747.

After completing the degree plan spreadsheet, next you will have to complete the Essay Response (word document) as part 2 of this assignment. Find the Word document and read the part 2 instructions.
