Using Social Media to Expand Your Knowledge

Take advantage of opportunities to use social media to advance your professional knowledge and connections. You can find a variety of professional organizations on social media such as Facebook, Twitter and LinkedIn, Pinterest, Google+, youtube, flickr and more. So, when you are browsing on these sites for your social interests, take a moment to check out some early childhood related connections as well!

Here’s an example. Take a look at the NAEYC home page at http://naeyc.org/. Now scroll to the bottom of the page to see NAEYC’s links to twitter, Facebook, youtube, Pinterest and flickr. Click on each of the links and browse these sites.

Here’s another example. Go visit the International Literacy Association’s home page at https://www.literacyworldwide.org/. Scroll down to the bottom of the page and find the social medial links. Click on them each to see the links to Facebook, twitter, Pinterest, Google+ and LinkedIn.
Finally, check out some of the University’s social media sites!
