Course Assignment Information

In this course, you will complete three related Assignments as described below.

Unit 3 Assignment: Outline and Annotated Bibliography

For this Assignment, you will develop an outline and annotated bibliography for your Unit 6 Assignment. The outline should contain main topics that relate to the Unit 6 Assignment, and the annotated bibliography should contain five sources. You will find additional information about writing your outline as well as your annotated bibliography in the Unit 3 Assignment materials.

Note that the information you use from the articles you collect needs to be paraphrased, i.e. put into your own words. It is considered plagiarism to directly quote someone else’s words without using quotations around the text even if there is an in-text parenthetical that accompanies the information. It is acceptable to use direct quotes from an article; however, over-quotiting someone else’s work is frowned upon in the academic community. Please only use quotations if paraphrasing would drastically change the original information. One direct quote per essay is acceptable.

Unit 6 Assignment: Essay

You will use the outline and annotated bibliography that you developed in the Unit 3 Assignment to compile a 4-5 page informative essay. You will use the articles you identified in your annotated bibliography to enhance the scope and depth of your work. The annotated bibliography assignment is designed to assist you with assessing the articles to determine if they connected to your overall topic and outline. Please keep in mind the paraphrasing information listed in the Unit 3 Assignment, and be sure to use your own words when citing.

Unit 9 Assignment: Essay

For the Unit 9 Assignment, you will build on the essay you wrote in Unit 6 by adding 4-5 more pages about the following:

- How social policies influence human services
- How social policies, governments and the delivery of human services are interrelated
- The recommendations in the literature about how social policies, government and human services could improve the process for the ethical delivery of services
- A summary of your findings and your own recommendations for improvement.
- Whether you agree or disagree with your literature findings
