Review the article and topic that you chose to write about in your Unit 4 Assignment. For your Unit 6 Assignment, write a document that explores the implications or value of this issue for a professional audience, specifically either the company you currently work for or one that you would like to work for.

You have several options here. For example, you could write an e-mail or report to your current supervisor or business owner, for the purpose of explaining why it is important for the company's employees to know about this issue, or you could explain how it may be a concept that will strengthen the company's position in the market if they apply it, or how it may in some other way be valuable for your audience. Or you could write a business letter to a prospective employer showing how this concept is valuable to them and their business success or how your knowledge of this subject might make you a valuable addition to their team.

Whatever focus you choose, be sure you establish a clear, specific main point and purpose and be sure that you are writing to a specific audience and meeting that audience's needs. This assignment should demonstrate your ability to create a semi-formal document that addresses a professional audience.

Length Requirements: Your assignment should be the equivalent of at least 2 double spaced pages
