Cancer Screening

Directions

Review the clinician provider guidelines and recommendations found at:
http://www.ahrq.gov/professionals/clinicians-providers/guidelines-recommendations/index.html

Imagine you are working in a clinic and need to screen a patient for one of the types of cancer listed below. While this is a preventative measure, it also can be a diagnostic tool for finding cancer.

- Prostate Cancer
- Breast Cancer
- Cervical Cancer

Please select one screening methodology to rule out cancer. Your screening choice must come from the National Clearinghouse guidelines. You will need to provide evidence for each of the guidelines for your selection and apply it to a specific population.

This paper should not exceed 2-3 pages, excluding your title page, and references. This paper should adhere to appropriate 6th edition APA format.

DUE: to Dropbox on end of Day 7 of Unit 2.
