Policy Change Proposal Section III

Description

In Unit 9, you will use the combined revised Unit 3 and Unit 5 Assignments as the beginning of the Unit 9 Assignment. If you follow all feedback in the Unit 3 and 5 graded Assignments, then in Unit 9, all you need to do is list three different recommendations for implementing your proposed amendment at the end of the proposal but before the reference page.

Directions:

In this section you will not write a conclusion or a summary.

For example, the proposal could end like this:

1. Implement the amendment using the Incremental Change policy option because this would allow time for stakeholder buy-in and facilitate the change in policy over time to secure adequate funding.
2. write another here
3. write another here

This will end the proposal. The three recommendations need no citations or references. You will then post the Unit 9 completed policy change proposal for a grade. Be certain to include all elements listed in the grading rubric for week 9 in the Assignment.

To view the Grading Rubric for this Assignment, please visit the Grading Rubrics section of the Course Home.
