Project Management for Health Care Information Technology Proposal, Part 3

Description

In Units 3, 5, and 9, you will develop a project management for health care information technology proposal. As you move through parts 1, 2, and 3 of the proposal you will adjust your ideas based on introduction of new concepts and instructor feedback. Key elements critical for each section of the proposal include:

- **Unit 3, Part 1**
  - Review the beginning and expansion of information technology within healthcare.
  - Explain critical areas of information technology personnel, cost, security, and regulation when creating a healthcare information technology proposal.

- **Unit 5, Part 2**
  - Examine the role of the advance practice nurse (APN) as a leaders and change agent in healthcare information technology.
  - Develop a budget for securing and implementing healthcare information technology.
  - Explore the use of cloud computing within healthcare information technology.

- **Unit 9, Part 3**
  - Apply evidence based practice (EBP) when selecting, implementing, and evaluating a healthcare information technology proposal, specifically the electronic healthcare record (EHR).

Directions:

**In Part 3 of the proposal, include the following critical elements:**

1. Select at least two evidence-based tools that will target electronic health record (EHR) system tracking limitations to prevent system failures. You must include a discussion of at least two regulatory and health, reform policy laws that would be integral to development and implementation of an EHR system.

2. Explain three ways that an incremental change model can enhance stakeholder buy-in for regulatory and public policy requirements linked to information technology.
3. Explain which management model you plan to use to take your electronic medical record system (EHR) "live". Include why you chose the model and how the model would work to create a successful platform.

4. Conclude by explaining why stakeholders would approve and fund your proposal providing at least three sound rationales with supporting evidence.

- The finished proposal should be a **maximum of 30 pages** including the revised Units 3 and 5 and excluding the title page and references.
- The **minimum number of references is 15** valid, peer-reviewed articles from the nursing literature including the references from Unit 3, Part 1 and Unit 5, Part 2.

Before finalizing your work, you should:

- be sure to **read the Assignment description carefully** (as displayed above)
- consult the **Grading Rubric** (under the Course Home) to make sure you have included everything necessary;
- utilize **spelling and grammar check** to minimize errors; and
- review APA formatting and citation information found in the **KU Writing Center**, in your APA manual, online at the APA website, or elsewhere in the course.

Your writing assignment should:

- follow the conventions of **Standard American English** (correct grammar, punctuation, etc.);
- be **well ordered, logical, and unified**, as well as **original and insightful**;
- display **superior content, organization, style, and mechanics**; and
- use **APA 6th edition** format for organization, style, and crediting sources including:
  - properly formatted header
  - 12-point, double-spaced, Times New Roman font
  - use of in-text citations
  - title page and reference page
  - use of headings (if applicable)

Submit the Assignment to the unit Dropbox before midnight on the last day of the unit.
